The remarkable effects of this treatment is said to be the instant relief from burning and itching and the almost instant removal or disappearance of the pimples and blackheads; and it is attated positively by those who have used it that the cure is permanent—that the pimples are cured to stay cured—and the skin is left as soft and clear and smooth and free from any marks or traces of the pimples or blackheads as could be desired. It cures bove and girls, men and women, whether old or young, quickly, permanently and positively.

old or young, quickly, permanently and positively.

For years skin specialists and doctors have tried to produce a face lotton or wash, or skin food or some sort of a cosmetic or face lotton that would cover up or cure the pimples, but all failed. The Cincinnati chemist who has at last solved the problem states positively that after many years of experience in the special study and treatment of thousands of patients suffering severely from pimples, blackheads and acne he has found a scientific combination treatment that removes the pimples and eruption, restores the skin soft and smooth and clean. And he announces through the public press of the country that ha will shally give his method free to all sufferers who write. The readers of this paper may address the Dermal Institute, 187 Wex building. Cincinnati, O., with a certainty that their request will receive prompt attention as he is the head of that well-known institution and can be relied upon. The method, while based on the soundest medical principles, is no simple that any person can use ft and cure themselves in their own heads.
